### 2018 Oregon Firearms Federation Federal Candidate Survey

1) There has been a call for a ban on so called “bump stocks” or any device that can “alter the rate of fire” of a firearm. With a small amount of practice a person can fire an unmodified firearm as quickly as one equipped with a “bump stock.” Devices that can “alter the rate of fire” of a gun include rubber bands and belt loops and of course, aftermarket triggers.

Would you support legislation that banned or regulated devices that “altered the rate of fire” of a gun but did NOT change the basic function of one round for every pull of the trigger?

Yes

No

Not sure

2) SB 719 in Oregon created “Extreme Risk Protection Orders.” These court orders allow a person’s firearms to be confiscated with neither accusation nor conviction of a crime. The person whose property is confiscated is provided with no opportunity to defend himself in court until *after* the order has been served and his property is confiscated. Then he must do it at his own expense. Neither the people who request the order nor the judges that issue it need to have any professional mental health experience.

Do you support “Extreme Risk Protection Orders”?

Support

Oppose

3) The current lawful age to purchase a rifle or shotgun in Oregon is 18.

Would you support legislation raising that age to 21?

Yes

No

4) Would you support legislation that banned, or further regulated, any firearm or firearm accessory that is currently legal in Oregon?

Yes

No

If so, what firearm or accessory would you support increased regulation of?

---

5) Do you support legislation that requires that concealed handgun licenses from any state be recognized in all states?

Support

Oppose

Not Sure

6) If you *do* believe that concealed handgun licenses should be recognized in all states, would you support allowing a person from a state that does not require a license to have a concealed firearm, to carry across state lines, assuming they were not prohibited from having a firearm?

Support

Oppose

I don't believe people should be allowed to carry firearms outside of their own state.
